YOGA

Creative Outlets 4 Kids Yoga program introduces young children to the wonderful and healthful practice of Yoga. Children derive enormous benefits from yoga. Physically, it enhances their flexibility, strength, coordination and body awareness. In addition, their concentration, and ability to relax themselves can improve. While practicing yoga, children exercise, play, connect more deeply with the inner self, and develop an intimate relationship with the natural world that surrounds them. Yoga brings that marvelous inner light that all children have to the surface

MUSIC AND MOVEMENT

Imagination is the key we use to open up a door into a world full of fun exercise. We begin each class with warming up and stretching our muscles to create strength and flexibility. We do this by "flying to different lands", "riding our bicycles" and "making crazy pizza". At times we become Fairies with wands and wings, other times we may become Knights and Princess. We incorporate the lessons and skills used throughout the Creative Minds curriculum to encourage children to take their learning further. Children will be invited to create and lead dances and games as they feel comfortable and we hope to give them a space to express their own ideas and thoughts as well as showcase their skills.

Cost \$35 per month
